1. Situation update – each school spends a little time giving the others an update on the Covid-19 situation in their country, and the consequences for their school and the ongoing teaching.
2. Change of plans – we have two proposed scenarios that we wish to discuss with you
3. Dates – we need to decide on new dates for the postponed activities
4. Finances – we will look into the possibility of relocating some of the funds from the travel/mobility budget to be used for other activities
5. Other issues/question from the participants

NB! Ligita and Zhivka: mind the time difference - I think for you, the meeting will be at 20:00.
